TEAM CHATTERIS

MANIFESTO FOR CHATTERIS

King Edward Community Centre

We believe that the future of this valuable resource should be secured for Chatteris. If elected we will do everything we can to ensure it is bought, the trustees are granted a fair and reasonable lease, and ensure it gets the repair and improvements that are long overdue.

Grove House

This substantial building was a public asset until FDC decided to sell it off at a knock down price! Your Lib Dem team wants FDC to secure its return to our community, to be used as a valuable public resource.

Youth Cafe

Our young people need somewhere to go. No-one is happy about the youngsters having no youth centre and hanging around the streets. Your Lib Dem team want to secure a place where the young people of our Town can meet and relax.

Leisure Centre

Chatteris needs and deserves a leisure centre. After over a DECADE of virtually no progress, the old Town Council eventually paid £30,000 for a survey and report which only told us what everyone already knew - Chatteris needs a leisure centre. There is currently some stumbling progress but we believe Chatteris deserves better -
AND WE PLEDGE TO PROVIDE IT !

More Neighbourhood Play Equipment ?

Now the "section 106" money is at last coming through, play equipment, all weather surfaces and goal posts etc. can at last be installed on some of the green spaces in Chatteris. We promise to survey neighbourhood opinion and when we find what is wanted where, we will make sure its installed.

YOUR Council keeping in touch with YOU !

For 4 solid years your Lib Dem councillors have been pressing for a Town Council web site with helpful contact details of Councillors, dates and agendas for meetings, minutes of meetings, and a forum for the public to communicate their concerns. This still hasn't happened. If elected we WILL create a web site to keep you informed and to receive your views and problems

Country Park

Fenland District Council acknowledges in a recent report that Chatteris deserves a County Park; but has decided to concentrate on providing one for March instead! The Lib Dems promise to fight for Chatteris!

Quality Council Status

There is much, much more that a Town Council can do than that which Chatteris Town Council currently undertakes. The 'old firm' of Town Councillors have long resisted the move to Quality Council status (which local papers have shown has now been embarked upon by several small local parishes!) The Lib Dem team is committed to see Chatteris Town Council gain Quality Status, to improve the service it provides including controlling grass cutting and public toilet cleaning locally

Listening to YOU !

Think something needs doing? Your Lib Dem team value your views. We keep in touch whether there are election or not and we listen to you!

Road Crossings

Road safety in Chatteris is poor. Many improvements are needed. Had local Councillors thought to lobby for a crossing on A141 to link Doddington Road with the rest of the town years ago it might have well been built then, but now the funding stream has been withdrawn. Your Lib Dem team is horrified by this situation and is pledged to ensuring improvements to road safety are made where ever they are needed throughout Chatteris.

Promises, Promises....

These are some of our promises to you. If we fail to fulfil our promises, please throw us out at the following election ! Many of the present councillors have served for years and years with no real achievements. The current chairman has presided for 15 years !
On May 3rd we invite you to give the Lib Dems the chance to show what our team can do !
